

Zdravo Valentina!!

here is my experience!!

Spending my summers in Belgrade, Serbia was one of the best decisions that i ever made.

It was my privilege that i got to do an internship in one of the most reputed institutes of Belgrade- Institut Mihajlo Pupin IMP. Me being an electronics student, the work profile that I worked in was totally related to my field. I would like to express my deepest gratitude to my supervisor Milan Oklobdzija, for his invaluable support, patience, encouragement, supervision, advice and useful suggestions throughout this project. I thank Institute Mihajlo Pupin, Belgrade, Serbia for their cooperation, help and invaluable assistance. Their hard work and team spirit were an impressive motivation for carrying out my internship.

Special thanks to Marko Oklobdzija whose help, kind share of knowledge and assistance enabled me to develop a good understanding of the subject so as to complete this project successfully.

I was lucky to get an internship in this institute where such learned people are employed.They really worked upon me and helped me everyday in my tasks.

Those 2 months in Serbia were probably the best two months of my life. I wish to come there again.

Hvala IMP , Hvala Belgrade!!!

Ciao!!!
